LIMMUEL G. ESPIRITU

FRONT END DEVELOPER | UI/UX & GRAPHIC DESIGNER

0928-409-0781 • limmuel.espiritu.27@gmail.com

PROFESSIONAL SUMMARY

I am a 4th-year BSIT student aspiring to become a Front-End Developer or Graphic Designer. I have foundational knowledge of HTML, CSS, and JavaScript, along with skills in Canva, Adobe Illustrator, Photoshop, and other design tools. Through academic and personal projects, I have developed my creativity, attention to detail, and problem-solving skills. I aim to apply my technical and creative abilities, contribute to the company's projects, and gain valuable professional experience.

CORE COMPETENCIES

- Web Development: HTML, CSS, JavaScript, front-end design, responsive web development
- UI/UX Design: User interface design, website and mobile app layouts, basic wireframing and prototyping
- Graphic Design: Logo design, poster design, branding, typography, ui/ux design, product packaging, simple 3d SketchUp model
- Design Software: Canva, Adobe Illustrator, Adobe Photoshop, PhotoRoom
- Video Editing: CapCut, video trimming, transitions and basic video effects
- Professional Skills: Creativity, problem-solving, attention to detail, time management, teamwork and adaptability

RELEVANT EXPERIENCE

CliNexus: An Integrated Web-Based Management System for Dental Clinic with a Mobile Application for Patient

— UI/UX Design Assistant | *2025 - 2026*

- Developed a web-based clinic management system to support patient records, appointment scheduling, consultation management, and billing.
- Assisted in designing and improving the user interface and user experience of the web-based clinic management system and mobile application for patients.
- Supported the creation of user-friendly layouts and interface elements based on system requirements.
- Collaborated with team members to improve the overall usability and visual consistency of the system.

Visual Graphic Design — TESDA NC III Training and Assessment | *2025*

- Applied principles of color theory, typography, composition, branding, and visual hierarchy in various design projects.
- Created logos and brand identities using Adobe Illustrator, focusing on clean, creative, and professional designs.
- Designed product packaging with attention to layout, typography, colors, and visual presentation.
- Developed posters and promotional materials using Canva and Adobe Photoshop.
- Created UI/UX design concepts for websites and digital applications, focusing on user-friendly layouts and visual consistency.
- Developed basic 3D models and design concepts using SketchUp.
